📁 PROFESSIONAL EXPERIENCE

Frontend Developer(Next Js and React Js)

AH Group of Companies

10/2023 – 12/2024
Islamabad, Pakistan

As a **Front-End Developer** at **AH Group Of Companies**, I worked on the **Envio By Vista** project, building and maintaining operational modules for managing orders, contractors, trucks, drivers, and invoices using **React.js** as the core framework. I used **Material UI** to design **responsive, modern, and consistent user interfaces**, and utilized **Redux**, **Redux Form**, and **Chart.js** while ensuring full **cross-browser** and **cross-device compatibility**.

Front End Developer(React Js)

Cyber Sync Technologies

07/2022 – 07/2023
Peshawar, Pakistan

As a **Front-End Developer** at **Cyber Sync Technologies**, I worked on the **ZKTeco Biometric Attendance System** using **React.js** to develop a web-based attendance and reporting platform. I built **custom React components** with **Tailwind CSS** and **Bootstrap**, and handled **API integration and testing** using **Axios**. I implemented **secure authentication** with **JWT** and ensured the application was **responsive, reliable, and user-friendly**.

Front End Intern

Geeks Hub

01/2022 – 07/2022
Abbottabad, Pakistan

During my internship at **GeekHub**, I transformed provided designs into **pixel-perfect** web pages, ensuring fidelity to the original mock-ups. I meticulously verified that the final products matched the design specifications and maintained high standards of quality. Additionally, I optimized existing projects to ensure **cross-device** and **cross-browser compatibility**.

PROJECTS

Star Bloom Landscaping

01/2025 – 03/2025

Plant Import and Export Website

<https://starbloomlandscaping.ae/> 

Developed a modern, high-performance website for a UAE-based plant import and export business using Next.js and Tailwind CSS. Leveraged server-side rendering and optimized routing in Next.js to achieve fast load times and improved SEO. Integrated Font Awesome for clean, scalable icons and managed full deployment on Hostinger, including domain configuration. Delivered a responsive, scalable solution optimized for business needs and enhanced user experience across devices.

Batoor.Pk

03/2023

Food Delivery Website

<https://peaceful-blancmange-7940df.netlify.app/> 

Developed a responsive food delivery web application for Cyber Sync Technologies using React. Leveraged component-based architecture and state management to deliver a seamless user experience. Styled the application with Bootstrap to ensure mobile responsiveness and design consistency. Enabled users in Peshawar, Pakistan to efficiently browse and order food from local vendors.

Envio By Vista

10/2023 – 12/2024

Ah Group of Companies

<https://dev.enviovista.com/> 

Designed and developed a responsive, SEO-friendly web application with a modern UI and smooth navigation. used **Material UI** for styling, **Redux Form**, **Chart.s**, **Redux Form**. Built role-based dashboards to manage operations such as **orders**, **trucks**, and **contractors etc**, ensuring high performance and an improved user experience across devices. React **Router for routing**.

Appem Design

01/2022

Personal Project

<https://appem-design.vercel.app/> 

Appem Design is a personal project developed using **HTML5**, **CSS3**, and **JavaScript**, featuring a **pixel-perfect**, fully **responsive design** across all platforms. The project includes smooth **card animations** implemented with CSS and JavaScript to enhance user interaction and visual appeal.

SidCap Family Clone

05/2023 – 09/2023

Personal Project

<https://sidcup-family-golf-clone-using-html.vercel.app/> 

sidCap Family Clone is a project built using **HTML**, **CSS**, and **JavaScript**, featuring interactive **GSAP animations**, a custom **scrollbar**, and a dynamic **mouse cursor effect** to create an engaging and visually appealing user experience.

Cable Co

01/2022 – 03/2022

Personal Project

<https://cableco-ten.vercel.app/> 

Cable Co Website is built using **HTML**, **Bootstrap**, and **JavaScript**, incorporating **DOM-based animations** and the **AOS library** to create smooth on-scroll effects for showing and hiding content, delivering an interactive and engaging user experience.
